Members of the ISA Board of Trustees

ISA facilitators, Parents, ISAers, Ladies and Gentlemen,

Good afternoon.

We gather here this afternoon to recognize the excellent performance shown by our children in the school year 2007-2008, and award them medals and certificates they so deserve.

School year 2007-2008 is another fruitful year for the ISA pre-school department. Nursery children who will be promoted to kinder 1 in the coming school year have develop their basic linguistic, logical, social, emotional and kinesthetic intelligences. Kinder 1 learners learned more advance lessons in language, math, social etiquettes, and are emotionally prepared to face higher challenges not only in academics but in character building as well.

APSA evaluation test results highly speaks of the excellent academic proficiency our kinder 2 learners have achieved. I believe the parents of this year's candidates for graduation are confident that their children are ready to enter the portal of elementary education.

I am glad to announce to our ISA parents, that 'Pre-nursery level' for children between 2 ½ and 3 years old will be added in our ISA Montessori curriculum starting next school year. However, due to the limited space ISA presently has, only ten learners will be admitted in the 'pre-nursery' class, and as of today, only one slot remains untaken.

Yesterday afternoon, we had our first high school graduation ceremony. We saw our first batch high school graduates leaving their Alma Mater to pursue far greater dreams in their chosen fields of study. We all know, it was another significant milestone in our unending pursuit of academic and moral excellence.

ISA parents, Dear preschool learners, there is no royal road to success, only those who do not dread to climb the steep mountain will reach the summit.

Thank you and Congratulations!
